

## Lec Pharmacy Refrigeration

Our pharmacy refrigerators have been designed specifically for pharmacy use and offer a safe and reliable environment for the storage of vaccines and drugs. They adhere to the guidance issued by the RPSGB and maintain an internal temperature of between +2°C - +8°C. They are also equipped with a thermometer that records both maximum and minimum temperature.

- Glass door with internal illumination, operated from the external control panel.
- The neat, integral digital control panel on the outside of the fridge is easy to use and makes checking the internal temperature straight forward
- All pharmacy fridges have fans delivering optimum temperature stability and a faster temperature recovery after door openings
- Automatic defrost ensures more efficient cooling
- Complete with door locks and two keys
- Temperature alarm which sounds if the temperature deviates from the set parameters for more than 15 minutes
- Auxiliary output gives the user the option of connecting support systems such as mains failure alarm signal
- Reversible doors
- Adjustable feet
- Removable shelves
- Low energy consumption
- CFC and HFC free
- Voltage Supply: 230V/50Hz
- UK 3 Pin Plug

### Options Available

- Chart recorders
- Mains failure alarm
- Castors
- European plugs

FPD-4543 - 275 Litres Pharmacy Refrigerator

FPD-4542 - 137 Litres Pharmacy Refrigerator

FPD-4541 - 67 Litres Pharmacy Refrigerator

## Pharmacy & Vaccine Refrigerators

| Item ID  | Code   | Description                      | Configuration | Door Type  | Height | Width | Depth | Shelves | Temp        |
